PROFESSIONAL SUMMARY

Junior Full Stack Developer and Software Engineering student at the University of Karachi (UBIT) with hands-on experience building responsive, database-driven web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js). Skilled in RESTful API design, JWT authentication, database modelling, and interactive interfaces with GSAP and Three.js. Completed Kaggle courses in Python, data analysis, and machine learning. Seeking internship and entry-level software engineer or web developer roles.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Java, Python, C, C++, SQL (MySQL)

Frontend: React.js, HTML5, CSS3, Tailwind CSS, Bootstrap, GSAP, Three.js, Responsive Design

Backend: Node.js, Express.js, RESTful API Design, JWT Authentication, Axios, CRUD Operations

Databases: MongoDB, Mongoose ODM, MySQL, Database Design, Schema Validation, Indexing

Tools: Git, GitHub, Version Control, Postman, Linux, Netlify, VS Code

Data & ML: Pandas, NumPy, Scikit-learn, Data Visualization, Feature Engineering, Model Validation

Core CS: Data Structures, Object-Oriented Programming, Software Design Patterns, Web Engineering

PROJECTS

Food Delivery Platform | 2023 – 2024

React.js, Node.js, Express.js, MongoDB | github.com/Azfarmoin

- Developed a full stack food ordering platform with restaurant listings, menus, shopping cart, order management, and customer delivery tracking.
- Designed a restaurant dashboard and an admin panel for platform management using role-based interfaces and RESTful APIs.

Social Media Platform | 2023 – 2024

React.js, Node.js, Express.js, MongoDB, JWT | github.com/Azfarmoin

- Engineered a social networking application with posts, likes, comments, follows, user profiles, search, and image uploads.
- Implemented real-time notifications and secured user sessions and API routes with JWT authentication.

Expense Tracker | 2023 – 2024

React.js, Node.js, Express.js, MongoDB | github.com/Azfarmoin

- Built a personal finance app to track income and expenses by category with budgets, spending charts, and analytics.
- Added automated monthly reports and exportable transaction data.

Full Stack MERN Web Applications | 2023 – 2024

React.js, Node.js, Express.js, MongoDB, REST APIs

- Delivered multiple full stack applications with complete CRUD functionality and RESTful APIs.
- Created Mongoose schemas with validation, relationships, and indexing; connected frontend and backend using Axios and React state management.

EDUCATION

Bachelor of Science in Software Engineering | 2026 – 2029

University of Karachi – UBIT (University of Business, Information Technology and Management)

Relevant Coursework: Data Structures, Object-Oriented Programming, Database Systems, Web Engineering, Software Design Patterns

VIRTUAL EXPERIENCE

Front-End Software Engineering Job Simulation – Skyscanner (Forage) | Sep 2026

- Built a Backpack React web app, applying component-based front-end development practices.

Venture Capital Job Simulation – H2 Ventures (Forage) | Sep 2026

- Completed tasks in investment selection, startup valuation, and startup growth analysis.

CERTIFICATIONS

Completed

- Full Stack Web Development (MERN, REST APIs, Database Design) – UI Learning Computer Institute, Karachi, Aug 2023 – Aug 2024 (issued 30 Nov 2024)
- Kaggle Micro-Courses – Python, Pandas, Intro to Machine Learning, Data Visualization, Feature Engineering, Model Validation, 2024

In Progress

- Flutter Development – e-Skills
- AWS Cloud Computing, AWS Certified DevOps, CompTIA Security+ – Honhaar Jawan
